

# Rugged Stainless Steel Motorsport Pressure Sensors

- Advanced Motorsport Pressure Sensor
- Stainless Steel Body
- Long Life - extremely robust
- Accuracy : +/- 0.5% @ Full Scale
- Sealed quick disconnect Packard connector plug with fly lead included
- Overload Capacity: 2– 4 times full scale
- Protection Class: IP67
- Pressure Medium: Any gas or liquid compatible with 316L Stainless Steel including air, fuel, oil and brake fluid
- Weight: 15, 100 & 150PSI: 55gm, 1600PSI: 100gm
- Output: 0.5—4.5V Linear
- Thread: 1/8-27 NPT
- Available Ranges: 0-15, 0-100, 0-150 & 0-1600PSI

Output Voltage by Pressure			
Sender Voltage	0V	2.5V	4.5V
0-15 PSI	0 PSI	7.5 PSI	15 PSI
0-100 PSI	0 PSI	50 PSI	100 PSI
0-150 PSI	0 PSI	75 PSI	150 PSI
0-1600 PSI	0 PSI	800 PSI	1600 PSI

Wiring	
Power Supply (+5V)	Red
Signal	Green
Ground	Black
