

Lifeline offers a full range of quality hand held Zero 360 Gas extinguishers to suit all budgets and motorsport applications.

Lifeline hand held extinguishers are supplied complete with a bracket and quick release strap for easy access (except for belt mount units). All units have a 2 year servicing cycle.

### Zero 360 Gas

The latest generation of Lifeline hand held extinguisher uses the highly efficient gaseous ZERO 360 extinguishant. Designed specifically for the rigours of motorsport and able to operate in any orientation.

- **1.0kg** – Ideal for your road car, trailer, service vehicle, caravan or workshop. This extinguisher size is not approved for motorsport use in car.
- **2.0kg & 3.0kg** – MSA / FIA approved, and used by World Rally Championship teams..

Ideal for pit personnel these handy belt mounted extinguishers will allow you to fight small fires quickly and safely using our 1.0kg Zero 360 Gas for A, B & C Fires (solids, liquids & electrical).

The specially designed holster allows for fast easy access but will ensure the extinguisher remains securely held at all other times.
